

PRAIRIE CREEK
COMMUNITY SCHOOL

August 5, 2020

Dear families,

Good afternoon! Here are a few things we are sharing with you today:

PCCS School Start Decision

We will announce how the PCCS school year will start on **August 17**. We are making this decision in accordance with the Safe Learning Plan and in consultation with our authorizer and Rice County Public Health. This initial determination could still be subject to change.

No matter which scenario we are in, the first day of instruction will be **September 14**. We anticipate that the first four days of the school year - September 8 to 11 - will be dedicated to child and parent conferences.

Summary of PCCS Scenarios

These brief one page summaries of each learning scenario we could be using this year - in-person, hybrid and distance - provide a look at what each model looks like for a child at PCCS. Included in this document is a one page overview of a Distance Learning Only Option.

PCCS Master Contingency Plan

This document contains more detailed contingency plans for school reopening in the three scenarios. Information includes more detailed information about health and safety, transportation, meals and child care.

Outreach to Each Family

We are committed to supporting families and children throughout this very abnormal year. A member of our leadership team will be reaching out to every family by phone in the coming days.

Thank you for your continued patience and grace as we move through these uncharted waters. We have had so many kind messages of support from community members.

Sincerely,

Simon
